# Bet 'em All is Back!

## How to Win!

Bonus Craps is set of three additional proposition bets.  
These three wagers are known as:

### All Small

Make your bet at the beginning of the roll. Roll all small numbers (2, 3, 4, 5, 6) before rolling a 7 and win 35 – for – 1.

### All Tall

Same side bet and same odds as All Small, except the bet is the 8, 9, 10, 11 and 12 will be rolled before a 7.

### Make 'Em All

All the numbers, EXCEPT 7, will be rolled before a 7. (pays 175-for-1)

You may make one or all of these wagers, any time a 7 rolls, or if all the numbers are rolled and the Bet 'Em All is paid. You may bet one or all of them again. Each number is printed on the layout and is covered with an adjacent lammer when that number is rolled. When all the numbers are covered for a particular wager, that wager is considered a winner. The wagers are then paid and bets are taken down. All wagers lose when a 7 is rolled.
