

spa blu-tiful

SUMMER 2019

■ CBD THE LATEST TREND

CBD or formally Cannabidiol is gaining recognition in the area of health and wellness. CBD is one of the 113 chemicals found in the marijuana plant however it does not contain THC. In other words, you can't get high from it. Its popularity has increased as it has been found to release chronic pain by reducing inflammation and interacting with neurotransmitters. It also is used for a variety of other health concerns. At spa blu you can add CBD oil to your body and/or foot massage. We also sell retail oils for home use. Ask your service provider about it.

■ FASHION TRENDS

- Animal prints
- Anything lavender
- Rompers
- Bike shorts/blazers
