

Unemployment Reference Sheet

The below information is intended to assist team members if making an inquiry with their state's unemployment office. Some of our entities operate under a legal name that differs from the branded name of our properties.

We understand that team members are eager to ensure that they receive any available unemployment benefits if their income is affected by the current property closures. If you choose to apply for unemployment, any income that you have received will need to be reported. The Company will likewise accurately report your current status and any pay that you have received or are set to receive. This information could impact your unemployment eligibility, especially for time periods that you've been paid by the Company.

Please note that the address that may auto-populate on the state unemployment website may differ from that of your property.

We will provide further information regarding property closures and related payment as it becomes available, both to team members and to unemployment authorities. We urge you to keep checking emergency.boyd.net for updates.
