## Game Description

*Roulette Up* is an optional bonus (felt) and progressive wager for Roulette games. Players wager that each spin will be in an increasing sequence. The streak continues as long as each spin is greater than the previous spin. Once the streak ends, wagers are paid based on the highest streak length achieved. The outcome of *Roulette Up* is not dependent on the base game's outcome.

## Rules of Play

Players may be required to maintain the minimum table wager on the base game in order to place a *Roulette Up* bonus wager or other appropriate house rules.

1. To begin each round, players place their base game wagers and, optionally, a *Roulette Up* bonus wager.
2. The first spin after the wagers are placed establishes the starting number. A lammer or dolly is placed in the "1" box of the *Up Streak* tracker denoting the current streak length is 1. Additional *Roulette Up* wagers will not be accepted until the current streak (round) ends.
3. The wager is active for as long as each subsequent spin is a greater number than the previous number. The streak length is tracked on the *Up Streak* tracker after each increasing number is spun. Also, note that:
  - a. For American Roulette, 00 is considered greater than 0 and less than 1.
4. The wager ends when any of the following occur:
  - a. 35 is the starting spin.
  - b. The number spun is less than or equal to the previous number.
  - c. 36 is spun.
  - d. The longest streak length available on the posted *Roulette Up* payable has been achieved.
5. Once the streak ends, the dealer reconciles any *Roulette Up* bonus wagers according to the streak length, as posted on the corresponding payable(s).
6. Once reconciled, wagering on *Roulette Up* becomes available.

### Example Streak Lengths

1. After bets are made, the numbers spun are 5, 22, 31, 25.
  - a. Streak length is 3
  - b. Streak ends because 25 is not greater than 31
2. After bets are made, the numbers spun are 6, 4.
  - a. Streak length is 1
  - b. Streaks ends because 4 is not greater than 6
3. After bets are made, the numbers spun are 35.
  - a. Streak length is 1
  - b. Streaks ends because only a 36 is greater, so the streak can only reach a length of 2 and, therefore, does not pay
4. After bets are made, the numbers spun are 9, 11, 20, 21, 36.
  - a. Streak length is 5
  - b. Streaks ends because no number is greater than 36
5. After bets are made, the numbers spun are 10, 19, 19.
  - a. Streak length is 2
  - b. Streaks ends because 19 is not greater than 19
