2. Whenever three face cards (Kings, Queens and Jacks in any combination) are flopped in Texas Hold=Em, that table will earn a splash pot. The number of face cards on the board will determine the amount of the splash pot.
  - a) 3 face cards on the flop = one (1) \$50 splash pot

  - c) 5 face cards on the board = four (4) consecutive \$100 splash pots
3. The earned splash pots will take place on the next available hand. If there is more than one earned splash pot the first splashed pot will take place on the next available hand and the second splashed pot will proceed with each subsequent hand. This will continue until all earned splash pots are exhausted.
4. The next available pot is defined as one in which the deck has not been cut. This applies to shuffle and non-shuffle machine games.
5. A player must have taken one hand at the table to be eligible for the participation of the splash pot.
6. Players may not have missed a blind to be eligible.
7. Pot agreements or "chops" at the table drawn are prohibited and will render the table ineligible to be included in subsequent drawings in the game. In the event this does occur, another table may be drawn in its place.
8. This promotion applies only to "live" hold-em games.
9. Games must have a promotional rake being taken to be eligible.
10. Splashed pot amounts are not included as part of the pot size for rake or kill pot purposes.
